

Consider Everything

KevinSilvia.net

No small detail deserves blatant disregard

Do your best to see that you notice each thing

The things you're aware of

And everything else

Consider every single thing there is

You will have to consider everything

It's easy to believe that there's an item you can choose to ignore

But if ever you find such a thing, then you've already thought about it

a little bit

Consider the plans you have

Consider your future

I remember forgetting this principle

There's no way to think of everything

But there's the danger that something you'd miss

Could bring a detrimental consequence

Things like amnesia or minor infections

The things you're aware of

And everything else

Everything precious

And everything else as well
