

The Visible Edge

KevinSilvia.net

Playing with my face all day

Watching the visible edge

Of the road I know you'll be coming down

To return to me again

The Visible Edge

On my front porch I got

The things I need to keep me here

Been waiting here for 20 years

I know you're coming home

[Across the Visible Edge]

With Ol' Brad here in the house behind me

I got the visual edge

Cause he's been waiting here for you too dear

So I keep my post here, got the Visible Edge
